Initial Project Proposal

Relationship between global suicide rates and gross domestic product (GDP)

Name : Yi Xu

Student ID : 28516222

Tutor : Jeffery Liu

Questions

1. Which country has the highest suicide rate?
2. How changes in the global economy will affect suicide rates ?

Data sources:

a. Global suicide rate estimates which is contains crude estimates rate, crude suicide rates per gender and country from 2000 to 2016.
b. World development indicators: GDP (current US$) by country from 1960 -2018

The first data source can help me answer to question 1. Combining data resources, a and b can help me answer to question 2.

Description of data sources:

1. Tabular data: 1K rows x 6 columns.
It has the suicide rate of each gender in countries around the world in 2000, 2010, 2015 and 2016.(https://apps.who.int/gho/data/view.main.MHSUICIDEv)
2. Tabular data: 1K rows x 63 columns.
It shows the GDP of global countries from 1960-2018
